Subject : MCC Process Change Notification#PCN 030711

Title: MCC enhance the epoxy resin grade for GS1M-LTP product

Effective Date : Mar-14th-2011

Reliability Data: Available per individual request

Samples contact: Sales@mccsemi.com

For question concerning this notification: techsupport@mccsemi.com

Description and purpose :

In order to improve anti-moisture performance for our GS1M-LTP, MCC has determined to use higher grade epoxy resin, and after our evaluation, this change was confirmed to enhance the product anti-moisture performance. After change epoxy grade from EK1700 to EK1800, the index of water absorption decreased from 0.55% to 0.51% typically.
